

HORIX Trust Consignment Program

Get Cash From Your Unused Inventory

You have unused inventory that won't sell, is no longer needed, or simply you don't know what to do with them.

Keeping those parts and components is costing you money while slowing down cash flow. You need to sell them to move your business forward, free up space, and get the money from your parts investment.

Since your Core Business is different, it doesn't make any sense to invest in a dedicated Sales structure (or overload your existing one) to get value from your Surplus.

It's a situation you probably identify with.

WE TURN YOUR WASTE INTO GOLD.

You can leave this material in storage for another 10 years or **YOU CAN TURN IT INTO GOLD.**

As time passes, your material gets older, losing its original value.

The ultimate solution is the Horix Trust Consignment Program. EASY, TRUSTED PROCESS

THE 10 BENEFITS

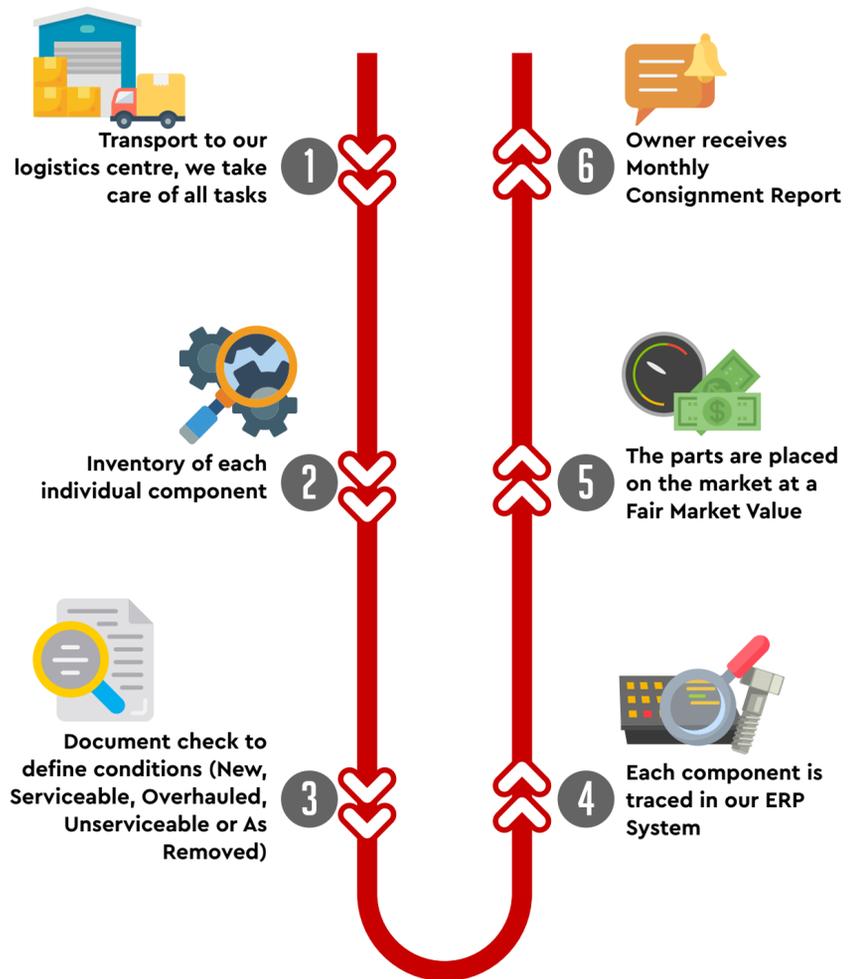

- Trusted Swiss Company
- Agreement with Transparent Rules
- Parties guaranteed by the strong Swiss law
- Monthly Consignment Reports
- Prompt payments at the end of each month
- Certified Warehouse for the storage of Aeronautical Material
- Right to conduct Audits
- Access to your parts at any time
- On-Time delivery, No Excuses
- Risk-Free Guarantee

EXPERTISE

We carry out an expertise in order to assess the value of your Components; based on the results, we are able to offer you a tailored solution.

PROCEDURE

Your components are managed in accordance with our Trust Consignment Program Agreement.

The Trust Consignment Program Agreement guarantees you the full availability of your components and that they are properly stored and preserved.
